Research Achievement

FORMTEX[®]

EXTRAORDINARILY ACCURATE
...EASY-TO-USE RUBBER BASE
IMPRESSION MATERIAL

Again, NU-DENT Research has solved a problem! For years, our dentists have sought an impression material that would give them the results they were looking for in their impression technique. Now...after a long period of research and clinical testing, we have developed FORMTEX - combining ideal working conditions with truly remarkable accuracy.

- Impressions remain accurate for as long as 3 weeks; does not have to be poured in the office.
- Setting time may be regulated.
- May be used with or without syringe.
- Unit is supplied with complete syringe and 4 barrels...additional barrels may be purchased.
- Backed by NU-DENT's record of more than a quarter of a century of development of superior working materials for esthetic restorations.

NU-DENT Porcelain Studio, Inc.

220 West 42nd St., N. Y. 36, N. Y.
(Phone LA 4-3591, 2, 3, 4, 5, 6)

9615 Brighton Way, Beverly Hills, Cal.
(Phone CRestview 5-8717)

Please send data on FORMTEX and other NU-DENT practice-building developments.

WHAT A STRADIVARIUS
SYMBOLIZES IN VIOLINS...

CARBOCAINE

SYMBOLIZES IN LOCAL ANESTHESIA...WITH ITS NEW,
UNIQUE AND UNSURPASSED STANDARDS OF PERFORMANCE.

From the performance of Carbocaine in scores of blind clinical investigations and in millions of applications in actual practice emerges this pattern...

- Carbocaine is remarkably well tolerated, both locally and systemically.
- Carbocaine frees patients sensitized to procaine from allergic responses to procaine-related local anesthetics.
- Carbocaine's effectiveness is consistently excellent.
- Carbocaine's onset is very, very rapid, frequently reported as "immediate".

We urge you to try Carbocaine now and see for yourself. Your dental dealer stocks it in 1.8 cc. min. cartridges, 50 cartridges per can. Or write for clinical samples and detailed literature to the pioneer in dental local anesthesia...

moment
of
decision...

Isn't it a dilution of your skill, Doctor, to use ordinary teeth in a restoration when Swissdent CR teeth cost so little more...and *are the only teeth in the world designed for the dentogenic concept?*

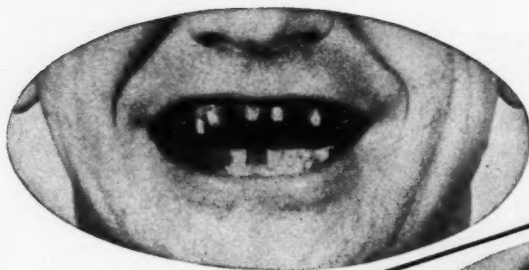

Wouldn't it be a wise professional decision to use Swissdent CR teeth exclusively in all restorations?

Many men have already made that decision, and most would tell you that it was a turning point, if not a milestone, in their careers.

PORCELAIN LINED ACRYLIC JACKET CROWNS

When you specify this increasingly popular Schroeder restoration, you are assuring your patient all of the precision fit of a porcelain jacket plus all of the dependable strength of the acrylics. You combine the best features of both and eliminate the weaknesses. The porcelain core contributes the true accuracy your impression calls for, and the acrylic surface adds the shock-proof, shatter-proof strength that provides permanency. The lasting bond between porcelain and acrylic and the perfect shoulder fit means no seepage ever, thus no discoloration—but lasting satisfaction.

- ✓ All of the precision fit of porcelain
- ✓ All of the great strength of acrylics
- ✓ Maintenance of shoulder fit for the life of the case
- ✓ Definitely no seepage
- ✓ Definitely no discoloration
- ✓ Better esthetics
- ✓ Complete patient approval

*Established
1919*

Remember Schroeder offers you a complete porcelain and gold service. Our expert technicians design and construct crowns and bridges from individual tooth replacements to complex bridges restoring 5, 6, 7 and more teeth. For results that mean the most to you and your patients, call or write Schroeder.

CREST is the first and only dentifrice

recognized by the American Dental Association

as effective against caries.

It can be a

valuable supplement to your program of reg-

ular, preventive care.

Won't you suggest

CREST to every patient who can benefit

from this added protection?

THE COUNCIL ON DENTAL THERAPEUTICS RESOLUTION:

"Crest has been shown to be an effective anticaries dentifrice that can be of significant value when used in a conscientiously applied program of oral hygiene and regular professional care; Crest dentifrice may also be of value as a supplement to public dental health procedures."

The Calendar

- November 1-2:** NORTHWEST SIDE BRANCH: In conjunction with the Academy of General Dentistry, meetings will be held on Tuesday evening and all day Wednesday, at the Chanteclair. Dr. A. H. Grunewald will be the guest lecturer at both sessions; his topic, "Dentures."
- November 4:** OAK LEAF STUDY CLUB: A meeting at the Oak Park YMCA at 12:00 noon will feature a talk by Dr. Philip Long on "Tissue Retraction."
- November 4:** CHICAGO ACADEMY OF DENTAL PSYCHOSOMATICS: The first session of the Workshop on Hypnosis will be held in Altgeld Hall, Roosevelt University.
- November 7:** WEST SUBURBAN BRANCH: Round Table meeting will take place at the Oak Park Club, 12:00 noon. Dr. Arthur Krol will speak on "Partial Dentures."
- November 8:** ENGLEWOOD BRANCH: Regular monthly meeting will be held at Nielsen's Restaurant; the speaker, Dr. Thomas K. Barber; his subject, "Interceptive Orthodontics."
- November 8-9:** WEST SUBURBAN BRANCH: "Rubber Impression Materials and Technique" will be demonstrated by clinicians, Dr. John F. Johnston and Dr. Eugene Skinner, at an evening meeting on the 8th and an all-day session on the 9th, at the Riverside Country Club.
- November 9:** UNIVERSITY OF ILLINOIS DENTAL ALUMNI ASSOCIATION: Annual Homecoming to start at 9 a.m.—with a banquet in the evening at the Chicago Illini Union.
- November 15-16:** CHICAGO DENTAL SOCIETY: The regular monthly meeting on Tuesday, the 15th, 8:00 p.m., will be devoted to "Periodontics" and on Wednesday, the 16th, all-day, the same topic will be featured. Both sessions will take place in the Waldorf Room of the Conrad Hilton and the speaker will be Dr. John Prichard of Fort Worth, Texas. See pages 15, 16 and 17 for further information and registration blank.
- November 16:** AMERICAN SOCIETY OF DENTISTRY FOR CHILDREN: Annual meeting of the Illinois Unit of the Society will take place at the Hotel Pearson.
- November 17:** FAR WEST STUDY CLUB: A meeting will be held at Louis' Restaurant. Dr. Gilbert Brinsden will discuss "Crown and Bridge."
- November 17:** CHICAGO DENTAL ASSISTANTS ASSOCIATION: Meeting will take place at the Palmer House, 8:00 p.m. Turn to page 27 for further information on this meeting and on C.D.A.A. Branch meetings.
- November 23:** NORTH SIDE BRANCH: Annual Clinic Day will be held at the Edgewater Beach Hotel. See page 10 for further information.
- February 5-8, 1961:** CHICAGO DENTAL SOCIETY: 96th Midwinter Meeting will take place at the Conrad Hilton Hotel.

Report on Budgeting

Submitted to the Officers and the Board of Directors of the Chicago Dental Society, September 20, 1960

Budgeting for the component branches of the Chicago Dental Society, involves making a plan for the use of the income to satisfy the needs and desires of the component branches for a definite period of time.

Incomes include total monies received from the parent Society and monies derived by functions performed by the component branches of the Society.

Budgeting is worth-while for many reasons. It balances spending by apportioning incomes in advance to cover branch Society needs. Budgeting checks wasteful spending and extravagances by making the differences between actual needs and mere desires apparent. A budget will and may very well prevent quarrelling and misunderstanding by outlining the financial routes a branch must take to stay within its income.

The various branch chairmen who help plan branch budgets are most likely, instead of arguing and pulling in opposite directions, to stay within the apportioned allowance, learning branch and Society cooperation and money management at the same time. A budget serves as a basis

to derive the greatest value and enjoyment from its acquired monies for branch Society activities and programming.

All branches must make some provisions for budgeting. In some branches the annual budget is prepared either by the president of the branch or under his supervision and then submitted to the branch legislative committee for approval and adjudication. In either branches the preparation of the budget is entrusted entirely to a legislative committee. The preparation of the budget for all branches is the responsibility of the presidents of the respective branches.

Once the financial program is adopted there remains the presidential responsibility of overseeing its effective execution. The branch president together with his officers, board of directors and various committee heads perform this function by regulated apportionment of appropriations. In this way the necessity for additional deficiency appropriations is minimized if not entirely avoided.

Respectfully submitted,
Arthur M. Duxler,
Chm., Committee on Committees

Three Important November Dates . . .

Be sure to vote on the 8th! And, plan to attend the Society meetings the evening of the 15th and all-day on the 16th. Turn to pages 15, 16 and 17 for complete information.

REGULAR MONTHLY MEETING CHICAGO DENTAL SOCIETY

Conrad Hilton Hotel

September 20, 1960

President James Lynch called the meeting to order at 8:12 p.m.

A motion was made and seconded to dispense with the reading of the minutes of the May meeting. Motion carried. A motion was made and seconded to approve the minutes as published in the July 15th issue of the **FORTNIGHTLY REVIEW**.

Reports of boards and standing committees: none.

Reports of special committees: none.

Unfinished business: none.

Dr. Graham O. Davies, Chairman of the Monthly Meeting Program Committee, introduced Dr. Wallace J. Gardner of Cambridge, Massachusetts. Dr. Davies stated that Dr. Gardner had addressed

over 12,000 dentists since last February and had received 5,000 telephone calls and over 8,000 pieces of mail. Dr. Gardner gave a very interesting and educational talk on the history of audio-analgesia and the general application of it on the patient. A very interesting film supplemented the presentation.

Dr. Davies announced the meeting for November. Dr. John F. Prichard of Fort Worth will present the subject of Surgical Techniques in Periodontal Case Management on Tuesday evening, November 15th, and on Wednesday he will present an all-day Seminar on Periodontia.

Meeting adjourned at 9:45 p.m.

Respectfully submitted,

Robert F. Tuck, *Secretary*

News of the Branches

North Suburban

Well, the first meeting at the Georgian was a real success by all standards. The social hour, dinner and lecture were handled with real dispatch. For once we got out at a respectable hour. Congratulations, "Pete" and committee. Good food, too! And the dear Dr. Sicher repeated the old slogan, "Centric occlusion is yet a vagabond." . . . Now all the rich guys are in California basking in the smog. Eddie Baumann went by way of "Vegas" and will go on to Hawaii. President A. Pedersen went by way of Salt Lake City (driving), Reno, San Francisco, and back thru Vegas. When does this guy work? Zenas Shafer flew to the Bay City and down the Coast. Paul Bostian hit San Diego first. Others who took the time off for L. A. are Adrian Swanson, Chuck Schelhas, Chuck Mercier, Bill Osmanski, and Jim (his Honor) Lynch. . . . Bill Quillman is a new father. . . . John Anderson now resides in Glenview. Welcome to our branch, John. . . . Bob Christopher attended the American Society of Oral Surgeons meeting in Phoenix. . . . George Kearns is a father again. Looks mighty proud. . . . We were sorry to learn that Jim Keith's wife was in the hospital for a time. But we are also glad to hear that she is recovering. . . . The Evanston Association's outing at the Naval Air Station was a nice affair. The steaks were wonderful and so was the after-dinner speech. (Grover was the speaker.) . . . Chuck Mercier managed a Little League team and won the National League Pennant in Wilmette. Nice going, Chuck. . . . Don't forget the December 6th meeting at Fort Sheridan! . . . And, plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete post-graduate course.—*Floyd Grover, Branch Correspondent.*

North Side

Congratulations to Prexy Stan Goldberg, Program Chairman Aubrey Lauterstein, and Dinner Chairman Harold Rabin for the terrific meeting that started the 1960-61 schedule. Maury Massler was his usual sparkling self as he traced the origin and evolution of oral habits, from the comforting reassurance of the thumb for the infant to the satisfaction and acceptance of the cigar in the adult. Are you smoking more lately—and enjoying it! . . . With a start like that, Clinic Day sounds even more exciting. Limited attendance clinics on Endodontia and Periodontia by Drs. Jay Henry Kaiser and John R. Wilson, both of Ohio State University, with a luncheon topped by the immortal and most inspiring Olympic hero, Jesse Owens, as toastmaster, and table clinics galore manned by names we all admire, i.e.: Kollar, Best, Leshin, Chung, Stine, Elfenbaum, Yale, Kamin, Caplan, Argianas, Behm, Gargiulo, Staffileno, Gerstein, Laskin, Robinson, Adilman, Selbe, Boyles, as just a sample. Clinic Day is all day Wednesday, Nov. 23, at the Edgewater Beach Hotel. . . . The very thought of November brings to mind National Election Day and our privilege as citizens of this great democracy to choose our leaders and choose them wisely. Dentistry needs friends in office if it is to continue unfettered. Choose your friends with wisdom, and then, even in the few remaining days before casting your ballots, let them know your choice and work for them if you want them to work for you. . . . Speaking of things that are national and even international brings to mind a whole raft of travel stories to ache the nose-grinding hearts of us stay-at-homes. . . . This guest columnist is pinch-hitting for ye olde editor, Paul Brown, who is squiring wife, Hilda, on a show and shopping spree in fabulous Yankee-town as a much deserved tonic following a dismal

summer of hospitalization and recuperation. . . . Lenny Chapman happily postcards the news of a second visit this summer to Fort Bragg, N. C., to visit his daughter and son-in-law who is a Captain in the Dental Corps. . . . Bob Jaffe is touring Europe with Israel as the highlight of his journey, while George Schmidt is traveling through Europe visiting and meeting leaders in dentistry in many a continental city. . . . Swinging the other way are Earl and Lucille Elman as they reap the benefits of the generosity of the First National Bank and the International Trade Fair. That wonderful prize money of last spring made a 20th Anniversary celebration in Las Vegas, Los Angeles, Honolulu, and San Francisco a cost-free delight—and the rest of us envious. While in Los Angeles, they will highlight the trip with their attendance at the A.D.A. convention where they will be joined by the Ted Dubrows, Warren Gerbers, Joe Ambroses, and Ben Bolasnys, just to mention the few we heard of. . . . More locally, we learned that Ray Bro used a Wisconsin fishing trip to relax after the excitement of an evening with the King and Queen of Denmark where he sat (almost) in the lap of Victor Borge. . . . Last but not least, let's pass out the congratulations to Leo and Dick Swoiskin on their expansion into even larger quarters in the Old Orchard Professional Bldg. . . . to Maurice Levine on his recovery from a severe upper respiratory infection which had him hospitalized. . . . to Dick Pippia's lovely wife for her victory over serious illness. . . . to Joel

Arnold for winning the radio door prize at our first meeting. . . . to Nate Lieberfarb who sprained his left ankle on a Monday, broke his right fourth finger a few days later, and continued in the office despite these handicaps to his engine foot and working hand. . . . and to little ole me for making it to the end of my first column. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care.—*Jules M. Barrash, Branch Correspondent.*

West Suburban

Round Table meets Monday noon, November 7th, at Oak Park Club. Dr. Arthur Krol will speak on "Partial Dentures." . . . Far West Study Club will have its regular monthly meeting on Thursday evening, November 17th, at Louis' Restaurant. Dr. Gilbert Brinsden will lecture on "Crown and Bridge." . . . Oak Leaf Study Club meets Friday noon, November 4th, at the Oak Park YMCA. Dr. Phil Long will speak on "Tissue Retraction." . . . As you all know, our regular West Suburban meeting for the month of November is a double-session situation. It will take place on November 8th in the evening and all day Wednesday, November 9th, at the usual meeting place, Riverside Country Club. The program—a most interesting one on Rubber

Impression Materials and Technic. The very popular clinicians, Dr. John F. Johnston, chairman of the Crown and Bridge Department, Indiana University School of Dentistry, and Dr. Eugene Skinner, Chairman of Department of Dental Materials, Northwestern University Dental School, will carry on extensive lectures as well as demonstrations. Table clinics will also be held at the Wednesday session. Reservations are necessary for both of these sessions. Your season ticket will be acknowledged for the Tuesday evening meal and session, however, on Wednesday, a \$10.00 fee per person to help defray cost of session and luncheon must accompany reservations to be made with ticket chairman, Jim Ridlen. . . . Rumors have it that the stork is heading for the home of the Marshall Marshall Family. This will be visit number four. . . . Also by way of coming stork visits, Dad Gresens will soon become Granddad when Ronald and wife receive their expected bundle of joy. . . . Joe Voita and Fred Hawkins have completed their boating season on Lake Michigan experiencing 75 mph storm winds. They, however, have not given up completely for a trip is planned with the "Society of Indiana Pioneers" down the Ohio River. Happy cruising, fellows! . . . Congratulations to Rudy Weihe upon passing both Florida and Arizona Boards; hope you aren't getting ideas of leaving us, Rudy. . . . Harry McArdle took off for Pittsburgh to witness the World Series games—word has it that he is ticket-less. . . . George Welk, Sr. has just returned

from a fishing trip at Land O' Lakes. . . . Our Olympic sportsman, Harold Henning, recently returned from the World Olympics via France, Germany and Italy. Harold was doing some judging at these events. . . . Carrier Pidgeon news tells us that Bob Strenk now is excused from the chores of dish-washing at home, he has now been promoted to the position of double-diaper changer. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with this program on Tuesday night, the 15th, it is a complete post-graduate course in this fast-growing phase of dental care. . . . "Perry Dontist" stopped in recently with a comment on success. He states that *Failures* are divided into two classes—those who thought and never did, and those who did and never thought.—*Joseph V. Discipio, Branch Correspondent.*

Kenwood-Hyde Park

Kenwood-Hyde Park's first meeting of the year showed the terrific spirit of togetherness the branch members have toward one another. This time we far surpassed all expectations, and our new room at Arnold and Eddie's was filled to capacity. The speaker of the evening, Dr. Harold Hillenbrand kept us all interested in his subject, "What Is Happening in Dentistry Today." His presentation was as always, well received. Dr. Henry Sorsen's new concept in anterior

SINCE 1902

ADERER GOLDS

Orthodontic and Prosthetic

JULIUS ADERER, INC.

5 SOUTH WABASH AVE., CHICAGO 3, ILL.

bridgework, was surely very thought-provoking. Please don't miss the next meeting, as we are all interested in our future insofar as our neighborhood is concerned. Mr. Levi is in a position to tell us all about it as he is the Executive Director of the South East Chicago Commission. Good food too at Arnold and Eddie's. Don't miss it, and please send your checks in for your dinner tickets. There were many new faces at our first meeting, one being T. A. Carlos who we hope will continue to be present at all future meetings. All of you who were present for the first time after a long time, and forgive me for not having your names, please continue to favor us with your presence and I would appreciate it very much if you would contact me at the meeting or at any other time, to say "hello" with possibly a little news about yourself or your friends. . . . Congratulations to Andy Jordan who has recently moved to his new building at 200 E. 75th St. . . . We understand that this is one of the most beautiful buildings on the South side of Chicago and just imagine, eleven physicians and two dentists! Do you boys ever have a spare moment? By the way, who's the other dentist? Let me know and you will be given equal space in the FORTNIGHTLY. . . . How was California, Walt Dundon, Elmer Ebert, Ascher Jacobs, Larry Johnson, Jack Sarnat, and all the other West-bound travelers? Let us know of your experiences. . . . Willard Johnson, Howard Harvey, Rudy Grieff, and Jack Moran went to South Bend for the Notre Dame and Southern California football game. Larry Johnson was supposed to go but his gall bladder took precedence over the football bladder. We're all so thrilled knowing that he overcame that problem, so that he could get to the ADA Meeting in Los Angeles. . . . We hear that Willard Johnson is moving his offices to Downers Grove. Isn't that where Howard Harvey is located? You couldn't ask for a better neighbor, Howie. . . . Thanks for dropping in to our meeting, Lou Tirengel. We understand you live a hop, skip and a jump from Arnold and Eddie's; perhaps

you can make it more often. You're always welcome. . . . Larry Johnson asked me to include the following in the column, read it well, gentlemen, and give it some thought: Have our members contact men in legislative positions, or those men running for office, and ask them to uphold and sanction dental legislation. If any other members know men from our district who are in State offices, contact them. . . . All members are urged to use and also acquaint their patients with the Society's Dental Budget Plan, the more members who use the plan, the better chance we have to build up our public relations. The money that the Dental Society realizes from this source helps our Society defray the cost of many items that otherwise would have to be tacked on to dues. Group practices who use the services of a business manager in many instances have turned to the budget plan. It has been found that a bill cannot be collected for a 4% fee. . . . Please attend the November 15 and 16 meeting at the Conrad Hilton and take advantage of the course in Periodontia. . . . Keep well and happy.—*Morton J. Fireman, Branch Correspondent.*

Englewood

"All the news that's pit to frint" . . . so anyway, some guy named Urban calls and says: "Hey, boy editor, it's your turn to write this thing for this month." "Pick up your pencil," he says, "and get ready to write." So I pick up my pencil, and what do I get from him? A lot of guff about his love life. Now we've all studied the love life of the worm, mud-puppy, shark, and cat, and most interesting they were too. Did Urban ever tell you of the time he went courtin' with a .45 strapped on his hip, or the time . . . oops, I forgot . . . only things pit to frint. . . . Poor Larry Lucas, only trying to do his duty in writing this column a while back ran into a typographical error. Larry, it was Lou Sousa's wife who had the baby, not Lou Sasso's. Speaking of

PLENTY OF SPACE. WHAT WOULD YOU THINK OF
COMMUTING FROM CALUMET CITY?"

News and Announcements

WRITE THE HILTON FOR MIDWINTER ROOMS

Room reservations for sleeping accommodations at the 1961 Midwinter Meeting are to be made directly with the advance reservations section of the Conrad Hilton Hotel. Previously they could be made through the Society office but increasing attendance year by year has made it impossible for the small central office staff to carry out this function.

Requests for rooms should be made in writing and sent to the hotel in Chicago, Zone 5. Give the type of room desired, the names of all the occupants and the day and time of arrival together with the day of departure.

The Conrad Hilton is usually out of rooms for the Midwinter Meeting by Thanksgiving at which time requests will be forwarded from the Hilton to the Chicago Housing Bureau which will assign latecomers to rooms at other Chicago hotels.

Rooms at the Hilton are limited. It is a case of first come, first served—write now or pray later.

ALPHA OMEGA PERIO COURSE OPEN TO ALL

In a letter to the Editor, Dr. Sidney H. Berg, President of the Alpha Omega Dental Fraternity, stresses that the line in the recent Alpha Omega announcement about the fraternity's course "Practical Periodontia for the General Practitioner" stating "for Alpha Omegas only" was in error and that this program is very definitely open to all members of the Chicago Dental Society and paid-up members of Alpha Omega.

The course will consist of five all-day sessions each occurring on one Wednesday per month. For additional information write or call Dr. Milton J. Sondell at 2011 East 75th Street, Chicago 49; telephone PLaza 2-7925.

WILLIAM G. BURKHARDT 1875-1960

Dr. William G. Burkhardt died September 17, 1960. He had practiced dentistry for over sixty-four years, having been graduated from the Chicago College of Dental Surgery, Loyola University, with the Class of 1896. He was a 50-year member of the Dental Society, and was a member of the Delta Sigma Delta fraternity.

His wife preceded him in death in 1957. Surviving are two daughters, Mrs. Leslie M. McClure of Urbana and Mrs. Arthur L. Price of Champaign, eight grandchildren and seventeen great-grandchildren.—*Mrs. Arthur L. Price.*

I.D.H.A. MEETING

The Illinois Dental Hygienists Association will hold its November meeting on the 10th at Younkers, 51 E. Chicago Avenue. Reports from the National Meeting will be presented by delegate, Julie Wittke and alternate delegate, Patricia Harms. Dinner is scheduled for 7:15 with business beginning at 8:00 p.m.—*Viola V. Johnson, Publicity Chairman.*

U. OF I. DENTAL ALUMNI ANNUAL HOMECOMING

The University of Illinois Dental Alumni Association has announced that Major General Joseph L. Bernier will be given the "Distinguished Alumnus of the Year" award at the annual Homecoming celebration Wednesday, November 9, on the College of Dentistry campus.

Dr. Bernier was appointed Assistant Surgeon General of the United States Army by President Eisenhower and assumed that post on July 30. He received his D.D.S. from the University of Illinois in 1932 and his M.S. in 1934. He was

(Continued on page 26)

Swissedenture is many things . . . It is **PERSONALITY**

Delicate personality

Vigorous personality

By combining the sciences and arts of the dentist, the sculptor and the psychologist, Swissedenture reflects the patient's personality.

Fundamentally, all persons are somewhere in the range of delicate, "medium" or vigorous in their physical personalities. The correct selection and positioning of teeth will augment this personality, resulting in a natural, pleasant smile. This achievement was not possible before the Swissedenture development of new materials and techniques.

Yes, Swissedenture is personality. It is also dedication of purpose, the reflection of life, of sex and age. But mostly it is people: the individuality of patients and the mutual quest for perfection by the Midwest Esthetics Forum and the profession we serve.

We, the members of the Midwest Esthetics Forum, pledge to maintain the highest standard of dental laboratory craftsmanship; to keep fingers on the pulse of all new advances in dental laboratory technology and, in consultation with members of the profession, to study these advances in an objective effort to determine their respective merits.

One of a series

Now Available in **PELLETS AND FILINGS**

ULTRA BRAND MICRO-FINE and NON ZINC FILLING ALLOY 72% or 68%

Gives the most homogenous mix, thus permits smooth wax-like carving. Develops *high initial* and permanent strength, with corresponding low flow. Assures permanently sealed cavities. Resists tarnish and oxidation. Fillings retain mirror-like lustre indefinitely.

Carefully graded to contain round micro-fine particles. This enables removing the excess mercury, thereby increasing the strength of the filling.

Ultra Brand 72% & 68% appears on the ADA list of Certified Dental Materials.

Use **ULTRA-BRAND NON-ZINC Micro-Grained ALLOY or PELLETS** when cavities must be filled under the adverse conditions of incomplete dryness—for instance filling children's cavities.

Ask your dealer for 10 oz. plus **FREE** package. It is moderately priced and superior in performance.

THERE IS NO MONOMER IN JECTRON

THE

DRY

DENTURE
RESIN

Liquid monomer is the acknowledged cause of most denture problems. JECTRON—the dry denture resin, is the only denture plastic which contains no monomer.

For relief from warpage, relief from shrinkage, relief from fracture, relief from tissue irritation—Specify JECTRON when you order dentures. Available in 6 lifelike shades.

No powders. No liquids. JECTRON arrives at our laboratories as you see it here, in bars of dry styrene resin, fully cured during manufacture, ready to be heat-softened and molded into dentures.

NEWS AND ANNOUNCEMENTS

(Continued from page 19)

commissioned into the army in 1935 and has been with the Oral and Dental Pathology Division of the Armed Forces Institute of Pathology since 1945.

Drs. Edward C. Wach, and Alvin J. Sells will also be honored during Homecoming when they receive "Loyalty" awards from the alumni association in recognition of their continued devotion and service to the university.

The awards will be presented following an evening banquet in the Illini Union. Featured speaker of the evening will be Dr. George W. Crane, nationally-known physician and psychologist, who will discuss, "Strategy in Handling People" and "What's Your H - R Score?"

The Homecoming program begins at 8:30 a.m. with registration in the Dental College. The morning session includes a closed-circuit television demonstration of various aspects of periodontal treatment and a discussion of the much talked about audio analgesia machinery. Luncheon will be served at noon in the college.

The afternoon program, in the Chicago Illini Union, is devoted to table clinics and will be followed by a social hour, business meeting and the banquet.

All alumni are invited to attend and are welcome to bring guests. For further information and for reservations, contact the Alumni Office, University of Illinois College of Dentistry. Dr. John M. Spence, head of the department of operative dentistry is chairman of the event.

A "THANK YOU" NOTE

The following note is from Mrs. Leona Brault, who is employed as dental assistant in the office of Dr. C. E. Simon, Harvey, Illinois.

"My thanks to all those in the Chicago area who remembered me with cards, gifts, and flowers during my recent eight-week stay in the hospital. I'm happy to report that I am now back in the office and making satisfactory progress."

C.D.A.A. NEWS

The September meeting of the Chicago Dental Assistants Association was held at the Palmer House and featured interesting clinics and the initiation of new members.

In October four members of C.D.A.A. attended the national meeting in Los Angeles—Helen McCarthy, President; Mary Alice Ford, treasurer; Olga Tamarin, Publicity Chairman, and Ruth Shipley, President-elect.

The November meeting of the Association will take place on Thursday, the 17th, at the Palmer House, 8:00 p.m. Dr. J. Roy Blayney will discuss "The Broad Obligation and Opportunities of the Dental Assistant."

The Northwest and North Suburban Branch, the West Suburban Branch, and the South Side Branch of C.D.A.A. will hold meetings on Tuesday, November 8. At the Northwest and North Suburban meeting, Dr. Elaine Stuebner will speak on "The Assistant in Oral Surgery." West Suburban meeting at Otto's Restaurant,

Forest Park, will have Dr. Maury Massler as guest speaker; his topic, "Dentistry in Israel." At the South Side meeting, Mr. Revenaugh of the Professional Business Management will talk on "Dental Practice from a Management Consultant's Viewpoint."—*Olga Tamarin, Publicity Chairman.*

EXAMINATIONS FOR DENTAL OFFICERS IN UNITED STATES PHS CORPS

Competitive examinations for appointment of dentists as officers in the Regular corps of the United States Public Health Service Commissioned Corps will be held throughout the United States on January 31, and February 1, 2, and 3, 1961. Should anyone in this area be interested, he may obtain particulars by calling the Chicago Dental Society office.

ATTENTION! AMERICAN SOCIETY OF DENTISTRY FOR CHILDREN

Since publication of a news release in our October 15 issue, the meeting place of the annual meeting of the Illinois Unit of the American Society of Dentistry for Children has been changed to the Hotel Pearson, Chicago. The date remains the same—November 16th.

NEWS OF THE BRANCHES

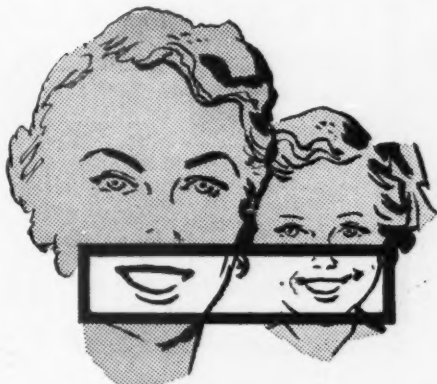

(Continued from page 14)

Sasso, it's been rumored that he spent the entire seven days of the World Series in the press booth providing the voice for the parrot in the "how are you fixed for blades" commercial. . . . And speaking of parrots (sneaky, huh?) Romaine Waska reports his parrot is learning to swear very nicely, thank you. He (Waska, not the parrot) just observed his fifth birthday in bed. He refuses to divulge his age (Waska's, not the parrot's). . . . Frank Pelka says Bob Unger is the new president of the Dental Arts Club and Chet Bochenek is secretary. Henry Mathews is an elder in his church, and Emil Olivi is seriously considering announcing his candidacy for president of Olympia Fields. Emil, did that house you bought a couple of years ago REALLY cost \$250,000? . . . Two more golf casualties, it seems that John Simkus shot his worst game of the year . . . a stinkin' 80, so he hung up his clubs in disgust and is now trying to recapture the 200 bowling average he had last year. Gus Solfronk makes no bones about it, he'd rather play bridge than golf. He says he doesn't lose as many balls that way. . . . Students at Loyola think "Professor Jaffe" is the *most*. They like him because his explorer doesn't have a point on it. . . . News item from the AP. Bochenek got a new caddy for his wife. Our source of information did not specify whether it's the kind you drive, or the kind that carries golf clubs. . . . Ed Tharp and wife are traveling through northern Illinois attending antique auctions. (What a spot for a mother-in-law joke. My idea, not Ed's). . . . Chuck Sinard's new convertible is coming equipped with air-conditioning. The only optional piece of equipment he turned down was a chauffeur. She was cute, too. . . . Frank Callozzo has decided to give up golf so he can concentrate on dentistry. He says he'd quit work tomorrow if he didn't need the money. . . . Plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, No-

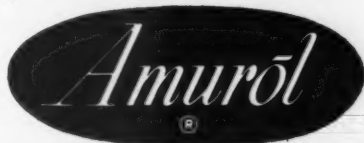

vember 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. . . . Guess I've run out of dirt for now, so best I quit. If I don't show at the next meeting, you'll understand. . . . Assistant to nine other assistants.—*Bill Fanizzo, Branch Correspondent.*

West Side

The Chicago Periodontal Study Club will hold its annual Mid-Winter Meeting at the Blackstone Hotel, Sunday, February 5th, 1961. The subject for the program will be, "Periodontal Reattachment," and will be presented by clinicians Marvin Sugarman and Max Shapiro. All those who desire to attend should consult Joseph Josh or Sam Goldberg. . . . The first branch meeting was well attended and as usual the "old faithfuls" of the West Side were very prominent and conspicuous by their presence. Walter Zippich has us off on the right foot and promises much in the line of good programs and plenty of entertainment. John Reilly reports that the soft-drink department did its usual brisk business. If Leo Cahill continues to distribute said soft drinks as of meeting nite the profits will be reduced by several ounces. They were good though. Fred Carroll was present even though it was a strain after his trip to Cincinnati, Ohio. The branch observed a minute of silence in respect to our members who have passed away in recent weeks. Oscar Cyrier's name was omitted in the last issue and least of all shall we not forget the memory of one of the most faithful and beloved members of the West Side Branch. . . . Sam Goldberg will attend the postgraduate course in Periodontia which will be conducted by Dr. Glickman at the Northwestern University School of Dentistry, January 24, 25 and 26th. . . . The Program Chairman for this new year will be John O'Connell of Loyola University and a member of the branch, who will be in there pitching to bring the best available programs for the meetings. . . . And, plan now to attend

the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care. . . . See you all soon again.—*Andrew J. Kelleher, Branch Correspondent.*

Northwest Side

The first meeting of the current season which was held at the Chanteclair on Tuesday, October 4th, was a tremendous success as was evidenced by the largest turnout of members it has been my pleasure to see. They were not to be disappointed because the program was an excellent one and I believe most everybody was well pleased. The catering service and food were very good; however, they were being taxed because of the unusually large number of members who arrived without making prior reservations. Your officers would therefore like to suggest that all members who anticipate coming to future meetings please notify the dinner chairman, Mark Spencer, at NA 2-0003 so that there may be some measure of anticipating future crowds. Those who have purchased their season tickets are already accounted for so they do not need to notify Mark. Among the many who were present at the meeting were Herman Wenger, the president of the Illinois State Dental Society; Joe Zielinski, president-elect of the State Society, and Sam Kleiman who has always been interested in political

affairs as they relate to dentistry. . . . Many of you may remember the Pomierski brothers (Al and Ralph) who were former members of the Northwest Side and who now practice in Mundelein. Well! they were visitors at the last meeting and they were much impressed by what they saw and were very much interested in the program that was presented that evening. We have a very progressive branch on the Northwest Side and one of which everyone can be proud as we are constantly on the move to bigger and finer things in dentistry. . . . Ray Rux, our secretary, is in Los Angeles for the convention and while there he will visit his sister in Redwood City, California. This convention is drawing many of our members to California and as a consequence the news items are rather meager at this time. Most everyone to whom I talk has some interest in the convention and this certainly is a healthy sign for dentistry. . . . The Dental Arts Club held its meeting at the Chicago Society Club on Tuesday, October 25th. The speaker for the evening was Boleslaw Mazur whose topic was "My Impressions After 22 Years." The topic is a very dear one to B. Mazur and it was very aptly presented. . . . The next regular monthly meeting of the Northwest Side will be held on Tuesday, November 1st, at the Chanteclair, 2304 N. Narragansett Ave. The speaker will be Dr. Grunewald whose subject will be "Practical Factors in Complete Denture Construction." The following day, Wednesday, November 2nd, will be the beginning of a special two-day Dental Seminar of which this is Part I on Dentures. Part II will be held on Wednesday, December 7th; the topic is Oral Surgery Problems. Have you registered for this special dental seminar which is actually a bonus being offered to all members? . . . And, plan now to attend the day-long seminar on periodontics the Society is presenting on Wednesday, November 16th. Coupled with the program on Tuesday night, the 15th, it is a complete postgraduate course in this fast-growing phase of dental care.—*Chester L. Jasick, Branch Correspondent.*

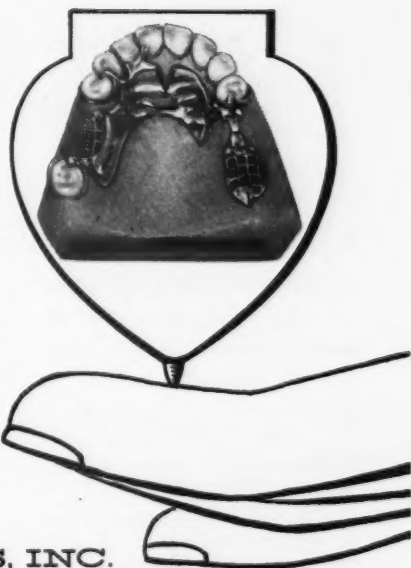

NOBILIUM IS TOPS

The successful *oral* service of partial dentures depends not only upon the metal used in processing, but also upon the dimensional accuracy of the materials used in preparing the cases for casting.

Thousands of prosthetic-wise dentists verify Nobilium service's superiority in providing partials that satisfy *every time*. The answer is to be found in Nobilium's employment of alloy, duplicating material, investments that were scientifically developed to *work together* for the best results. The Nobilium electric casting machine assures the most perfect dental castings ever made by protecting the alloy during melting from the atmosphere with argon gas and thus eliminating flux and avoiding oxidation and carbon pick-up.

The whole is equal, as you know, to the sum total of all its parts. Nobilium partials are tops because *all* metal, materials and methods used in their construction are unsurpassed . . . For real patient happiness, nothing compares with Nobilium restorations. Specify them to your laboratory.

CROSS SECTION SHOWING HOW
STIM-U-DENTS FORM A PERFECT FIT
IN THE INTERPROXIMAL SPACES.

MAGNIFIED CROSS SECTION
OF STIM-U-DENTS SHOWING
POROUS, COMPRESSIBLE
STRUCTURE.

HERE'S WHY STIM-U-DENTS ARE SO EFFECTIVE

BECAUSE, WHEN MOISTENED, STIM-U-DENTS, BY REASON OF THEIR COMPRESSIBILITY, form a perfect fit in the teeth spaces not reached by the toothbrush.

When GENTLY MOVED BACK AND FORTH they produce a highly efficient action to the interproximal surfaces, thereby promoting cleanliness and interdental hygiene.

SIMULTANEOUSLY, the contacted teeth surfaces are cleaned and polished, food particles that cause BAD BREATH and lead to DECAY are removed, and cervical borders of fillings and crowns are rendered bright and clean and far less likely to recurrence of decay.

STIM-U-DENTS are a valuable adjunct in the treatment of periodontal disease.

FINISH WHAT THE TOOTHBRUSH LEAVES UNDONE

...The result of modern professional denture service and the natural tooth color reproduction of

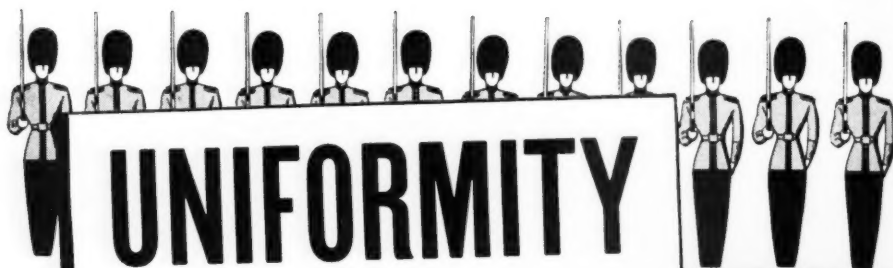

TRUBYTE® Bioblend
MULTI-BLENDED VACUUM FIRED PORCELAIN ANTERIORS

This nurse is a Trubyte Bioblend denture patient. Her natural smile is an invaluable asset to her in her profession.

When *any* denture patient smiles, "denture color" is immediately recognized as being lifelike or obviously artificial. *Bioblend's* variegated tooth colors, "built in" on Nature's own plan of tooth color correlation, have eliminated monotony and conformity in the denture smile. Your Trubyte Dealer Representative will gladly show you how Trubyte Bioblend offers a new opportunity for consistently superior results in your prosthetic practice.

UNIFORMITY

... an important advantage
you get when you use

DEE GOLD

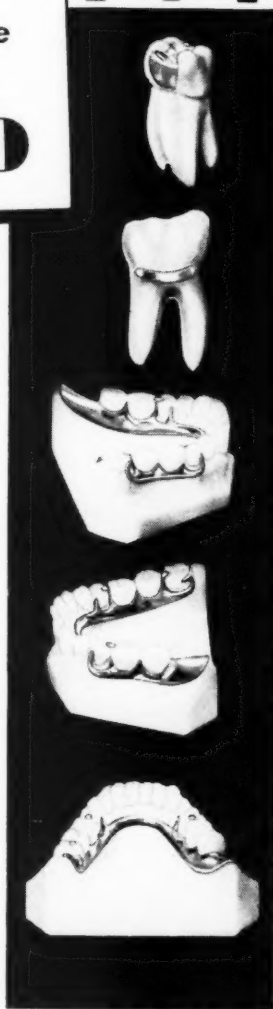

You start with a big advantage when you use DEE GOLD — Because DEE offers you a range of compositions that satisfies the special working and serviceability requirements of each specific use of gold in dentistry. There are compositions for all types of inlays, crowns and bridges, for wrought wire and cast partials.

But, equally important is this other big advantage — *unvarying* **UNIFORMITY**. This is obtained and maintained by the most exacting scientific control of DEE GOLD production. It means that every ounce of each and every DEE GOLD composition that leaves the factory, has the same properties — which in turn means you can count on the same satisfactory results every time.

SEND FOR THE DEE GOLD FOLDER

It lists the different DEE GOLD alloys with their physical properties and the uses for which they are suited.
